

Forget about those complicated, outdated systems. Butterfly Abs is the smallest, lightest, most effective exerciser on the market. And it works without messy wires or gels. It's ergonomic and self-adhesive. Just stick on the butterfly pads and it readily adapts to any part of your body.

### Features:

- With Butterfly Abs, you'll strengthen and tone your entire body with absolutely no effort.
- It's small but powerful and is very easy to use, even working those areas bigger units can't handle.
- It has 10 intensity levels and 5 different programmes to adapt to your needs.
- Use the handy Butterfly Abs whenever you want. Wear it under your clothes and no one will see it. All they'll notice are your rapid results.
- Strengthen your biceps, tone your arms, eliminate love handles, harden your gluts, thighs and legs.

- And because it's so small, you can take it with you anywhere and exercise wherever you go.

## How It Works?

Its state-of-the-art technology concentrates all its energy in a single microchip that makes your muscles contract and relax up to 100 times per minute. Butterfly Abs really works to give you a great, fantastic workout.

Just use it a few minutes a day and you'll notice the results. You can use it anytime and anywhere: while you read, do household chores, work on the computer or watch TV. Simply choose the intensity programme you desire, relax and let it do the work for you.
