Description

This exercise machine will give you a total body workout. Works your upper body including your arms and shoulders and your lower body including your hips, legs and buttocks and comes recommended by both doctors and professional athletes.

Features / Benefits:

- Elliptical Cycle Platinum is the perfect non-impact total body workout for all age groups and all fitness levels!
- The Elliptical Cycle Platinum still features a total body workout with no impact and best of all improvement is in the "turn and resistance".
- The Elliptical Cycle Platinum is more compact, it takes up less room, features larger pedals and is virtually silent.
- Elliptical Cycle Platinum combines waist slimming cardio with the power of resistance training all in one revolutionary machine, so you get an awesome muscle sculpting and calorie burning workout at the same time.
- This new feature allows you to crank up the resistance all the way to burn up to 820 calories per hour. Your workout benefits have just been doubled!
- It's compact size is ideal for even the smallest house or apartment and the EASY GLIDE WHEELS make it simple to roll just about anywhere.
- Seat with front and back parallel adjustment.
- Electronic Monitor at eye level.
- Middle Handrail.
- Seat with Adjustable height.
- Steel wheel.
